CLEANSING LOTIONS AND GELS

Antibacterial Cleansing Gel

Indications: Mild gel which produces cleansing foam upon contact with water. It is perfect for cleansing oily and acne skin, as well as sensitive skin.

Ingredients: Sepicontrol™ A5, liquorice and astragalus extracts, panthenol.

Effects:

- removes impurities and excess sebum from the skin
- normalizes the function of sebaceous glands
- reduces oiliness and skin shine
- alleviates redness and relieves irritations
- leaves the skin clean, smooth and fresh.

ACNE
A

500 ml

100 treatments

Ref. PZ 143

Regenerating Cleansing Milk

Indications: Gentle milk for cleansing all types of mature and sensitive skin with low tolerance to water (including for eye makeup removal).

Ingredients: regenerating plant complex (marigold, aralia, devil's claw, liquorice, alfalfa, hibiscus), shiitake mushroom extract, plant ceramides.

Effects:

- removes impurities and makeup
- has a moisturizing, revitalizing and soothing effect thanks to its rich formula
- prevents moisture escape from the epidermis
- leaves the skin clean, smooth and soft as silk.

ANTI-AGE
A

500 ml

100 treatments

Ref. PM 010

Collagen Cleansing Gel

Indications: Ultra-mild gel with the smell of white orange blossoms, bergamot and cyclamen, for the cleansing of all skin types, especially dry, rough and dehydrated.

Ingredients: Gentle washing base without soap, SLES and SLS, atelocollagen, triple hyaluronic acid, phytoplankton, babassu oil.

Effects:

- removes impurities from the face and eyes without drying and irritation
- the highest skin tolerance - does not affect the hydro-lipid balance of the epidermis
- leaves the skin clean, clearly smoother, moisturized and fresh.

ATELOCOLLAGEN
A

500 ml

100 treatments

Ref. PZ 007

Cleansing Eye Make-up Remover

Indications: The solution removes makeup from the eye area and eyelids gently yet thoroughly. It is suitable for contact lens wearers and for sensitive eyes.

Ingredients: eyebright extract, panthenol.

Effects:

- removes impurities and makeup
- has a liquid consistency and does not feel oily or heavy on the skin
- moisturizes the skin
- brings soothing and relief
- minimizes signs of eye fatigue
- its active ingredients have soothing and revitalizing effects.

SKIN CARE
S

150 ml

30 treatments

Ref. PM 140

Hyaluronic Cleansing Milk

Indications: Cleansing milk for all types of skin, especially dry, dehydrated and with poor water tolerance.

Ingredients: Hydroviton® Plus (sodium hyaluronate, NMF, saccharides), ceramides, sunflower oil, allantoin.

Effects:

- washes away impurities and makeup, including the eye area
- softens and provides the skin with a delicate protective film
- prevents the "escape" of water from the skin, leaving it clean, moisturized and smooth.

HYALURON PLUS
H

500 ml

100 treatments

Ref. PM 205

Vitamin Milk Ultra-Light

Indications: Nourishing ultra-light lotion with smooth texture and pleasant fruity scent. Perfect for skin cleansing of all types of complexions.

Ingredients: Roversomy® ACE Plus (liposomes with retinol, vitamin C and tocopherol), vitamin B3, B6, tocotrienols, sunflower seed oil.

Effects:

- perfectly washes away impurities and makeup
- active ingredients regenerate and protect against photoaging
- does not aggravate the skin with greasy "film"
- leaves the skin perfectly clean, soft and refreshed.

MULTIVITAMIN
V

500 ml

100 treatments

Ref. PM 261

CLEANSING LOTIONS AND GELS

Soothing Milk For Sensitive Skin

Indications: Cleansing milk for couperose and sensitive skin of any age.

Ingredients: arnica montana extract, panthenol, vitamin E, sunflower oil.

Effects:

- gently removes impurities and makeup without affecting the protective epidermal hydro-lipid film
- has moisturizing, soothing and calming effects thanks to its unique composition
- makes blood vessels stronger and more elastic
- leaves the skin clean, soothed and soft.

500 ml

100 treatments

Ref. PM 009

Gentle Cleansing Foam

Indications: Gentle foam with a natural pH 5.5 for make-up removal for all types of skin and eye areas.

Ingredients: mild washing base (without soap, SLES, SLS), soapwort, calendula.

Effects:

- deeply and gently cleanses the skin
- washes away impurities, excess sebum and makeup
- does not affect the hydro-lipid balance of the epidermis
- helps maintaining the bacterial flora of the skin in balance
- leaves the skin perfectly clean and refreshed.

150 ml

80 treatments

Ref. DZ 197

Micellar Cleansing Water, Face & Eyes

Indications: Unscented micellar water for removing make-up for all types of sensitive skin and eye area.

Ingredients: Microscopic spherical micelles, panthenol.

Effects:

- micelles absorb all kinds of impurities and excess sebum from the skin
- cleanses the skin without having to rub it with a cotton swab
- leaves the skin perfectly clean and fresh
- the soothing formula does not require rinsing.

500 ml

100 treatments

Ref. PM 001

TONICS

Antibacterial Tonic

Indications: Alcohol-free tonic for oily and acne skin.

Ingredients: white willow bark extract (a source of salicylic acid), colloidal silver, liquorice, common fumitory, heartsease, marigold, azelaic acid.

Effects:

- clears clogged pores
- normalizes the function of sebaceous glands
- maintains a healthy balance of bacterial skin flora
- relieves irritations
- leaves the skin clean, fresh, subtly lighter and matte.

500 ml

100 treatments

Ref. PT 142

Regenerating Tonic

Indications: Alcohol-free tonic for all types of mature skin which needs regeneration.

Ingredients: regenerating plant complex (marigold, aralia, devil's claw, liquorice, alfalfa, hibiscus, poplar buds), plant ceramides, panthenol.

Effects:

- tones up the skin and restores skin's natural pH value of 5.5
- moisturizes and smoothes out the skin
- stimulates the cells which are part of the skin's immune system
- offers refreshment and relaxation and makes the skin tighter.

500 ml

100 treatments

Ref. PT 003

Collagen Tonic

Indications: Tonic with a delicate aroma of white orange blossoms, bergamot and cyclamen, for all skin types, especially dry, rough and dehydrated.

Ingredients: atelocollagen, phytoplankton, deep sea water, panthenol.

Effects:

- tones and restores the physiological pH of the epidermis
- long-lasting moisturizing and smoothing of the skin
- remineralizes, refreshes and improves the skin tone
- cleanses the skin of impurities and provides a beautiful fragrance.

500 ml

100 treatments

TONICS

Hyaluronic Moisturizing Tonic

HYALURON PLUS
H

Indications: Alcohol-free tonic for all types of skin, especially dry and dehydrated.

Ingredients: Hydroviton[®] Plus (sodium hyaluronate, NMF, saccharides), ceramides, allantoin.

Effects:

- tones, refreshes and smoothes the skin
- actively moisturizes and protects the skin against water loss
- soothes irritations.

500 ml

100 treatments

Ref. PT 206

Illuminating Vitamin Tonic

MULTIVITAMIN
V

Indications: Alcohol-free tonic with a pleasant, fruity scent for all types of complexions, especially dry, tired and dull.

Ingredients: Rovisome[®]ACE Plus (liposomes with retinol, vitamin C and tocopherol), 5% lactic acid, lime extract, panthenol.

Effects:

- perfectly cleanses the skin of impurities
- brightens and smoothes gray, rough skin
- active ingredients brighten and protect against photoaging
- gives the skin a healthy glow and smoothness.

500 ml

100 treatments

Ref. PT 262

Soothing Tonic For Sensitive Skin

SENSITIVE
S

Indications: Alcohol-free tonic for sensitive and couperose skin and for the skin after rosacea remission.

Ingredients: arnica montana, panthenol.

Effects:

- tones up, moisturizes and smoothes out the skin
- relieves erythema and irritations
- makes capillaries stronger and more elastic
- stimulates blood circulation, subtly lightens and relaxes the skin.

500 ml

100 treatments

Ref. PT 002

PEELINGS

Peeling AHA Cranberry

FACE REJUV
R

Indications: Emulsion gel exfoliant for all types of skin, including sensitive and couperose skin.

Ingredients: alpha hydroxy acids derived from fruit, cranberry extract.

Effects:

- does not cause redness or irritations
- peels off dead cells of the horny layer of the epidermis; lightens and smoothes out the skin
- evens out the skin tone and imparts radiance to the complexion
- prepares the skin for the absorption of active ingredients
- leaves the skin perfectly smooth, lighter and soft to the touch.

200 ml

25 treatments

Ref. PP 164

Sapphire Peeling Alternative To Microdermabrasion

NEW SKIN
N

Indications: Gentle emulsion exfoliant and an alternative to microdermabrasion.

Ingredients: aluminium oxide micro crystals, marigold extract.

Effects:

- peels off dry and flaking dead epidermal cells and 'polishes' the skin to eliminate enlarged pores and fine wrinkles
- stimulates microcirculation, lightens and evens out the skin tone
- refreshes, smoothes out and regenerates the skin
- leaves the skin perfectly smooth and soft to the touch.

200 ml

25 treatments

Ref. PP 182

Enzymatic Peeling

FACE PEELING
P

Indications: Gentle creamy exfoliant for all types of skin, including sensitive and couperose skin.

Ingredients: bromelain and papain enzymes.

Effects:

- the enzymes' keratolytic activity helps break down the bonds between cells in the horny layer of the epidermis
- peels off and removes impurities and dead epidermal cells
- smoothes out and lightens the skin
- leaves the skin clean, smooth, moisturized and subtly tighter.

200 ml

25 treatments

Ref. PP 085

PEELINGS

Enzymatic Peeling With Millispheres

Indications: Scrub for oily and combination skin with comedones.

Ingredients: bromelain and papain enzymes, peeling millispheres.

Effects:

- the enzymes' keratolytic activity helps break down the bonds between cells in the horny layer of the epidermis
- peeling spheres smooth out and polish cornified epidermis
- removes impurities and dead epidermal cells
- leaves the skin clean, perfectly smooth and lighter.

FACE PEELING
P

200 ml

25 treatments

Ref. PP 155

Sugar Face Peeling

Indications: Innovative scrub peeling in nourishing oils, for all skin types, also sensitive.

Ingredients: gradually dissolving sugar crystals, 10% avocado, macadamia, soybean oils, beeswax.

Effects:

- exfoliates and cleanses the skin of dry skin and calloused skin
- moisturizes, slightly oils and brightens
- reveals unbelievably smooth and velvet-like skin
- applied with wet fingers, it becomes even milder and more comfortable in sensations.

SKIN CARE
S

200 ml

25 treatments

Ref. PP 004

Enzymes used in peelings are derived from tropical fruits: bromelain from pineapple and papain from papaya.

EXFOLIATION ACIDS

42% Acne Peel

New

Indications: A semi-liquid acid peeling for oily and acne skin with inflammatory imperfections and discolorations.

Ingredients: 20% azelaic acid, 20% mandelic acid, 2% salicylic acid, pH 2.0.

Effects:

- gently exfoliates and smoothes the skin
- regulates excessive keratinization of the epidermis and sebaceous glands
- cleanses contaminated skin
- reduces blackheads, speeds up „healing“ of pimples
- brightens and adds complexion.

ACNE
A

30 ml

10 treatments

Ref. PP 037

10% Anti-Age Peel
Ferulic Acid 10% Anti-Age Peel

New

Indications: Highly concentrated ferulic acid for the skin with signs of aging, discoloration, mimic wrinkles and exposed to negative environmental factors (UV, smog). To use with Active Peptide Booster based on 5% Argireline® peptide, 1% Ester Retinoic, 1% Resveratrol.

Ingredients: 10% ferulic acid in plant glycol.

Effects:

- deactivates free radicals (ROS) and protects against photo-aging
- enhances the effects of other anti-oxidants
- reduces mimic wrinkles and improves tension
- brightens and visually rejuvenates the skin.

ANTI-AGE
A

30 ml

10 treatments

Ref. PP 058

40% Glow Peel

New

Indications: A semi-liquid acid peeling for the skin with discolorations, „gray“ color, with an uneven structure (wrinkles, enlarged pores).

Ingredients: 30% lactobionic acid, 5% ascorbic acid, 5% succinic acid, pH 2.0.

Effects:

- gently exfoliates and smoothes rough skin
- supports cell renewal processes - stimulates collagen and elastin
- protects against photoaging
- brightens and reduces skin redness
- provides the skin with a radiant and luminous appearance.

GLOW SKIN
G

30 ml

10 treatments

Ref. PP 105

EXFOLIATION ACIDS

25% Glycolic Acid + SkinPerf LWG Acids

Indications: Semi fluid AHA acid peeling for mature complexions with imperfections and discolorations.

Ingredients: 20% glycolic acid, 5% SkinPerf LWG acids - glycolic, lactic, citric lamellar LWG gel, pH 3.0.

Effects:

- LWG technology reduces the irritating effect of acids and helps to penetrate the skin
- precisely and gently exfoliates the epidermis
- reduces discoloration and imperfections
- tightens the skin and gives the effect of a mild lifting
- providing the complexion with remarkable smoothness, purity and delicacy.

GLYCOLIC ACID

30 ml

15 treatments

Ref. PP 119

50% Mandelic Acid + PHA pH 1,5

Indications: Gel exfoliant for year-round use recommended for young oily skin or mature skin with dilated capillaries or hyperpigmentation.

Ingredients: mandelic acid (40%), polyhydroxy acids (10%): gluconolactone, lactobionic acid, pH 1.5.

Effects:

- peels off and smoothes out the skin and lightens hyperpigmentation
- reduces seborrhoea, comedones and acne blemishes
- stimulates collagen synthesis and minimizes wrinkles
- soothes dilated capillaries
- does not cause irritation or burning
- relieves irritations.

MANDELIC ACID + PHA

50 ml

30 treatments

Ref. PP 363

Tonic-Gel With Mandelic Acid

Indications: Alcohol-free tonic for all types of skin.

Ingredients: mandelic acid (6%), polyhydroxy acids: gluconolactone, lactobionic acid, panthenol; pH 3.0.

Effects:

- clears clogged pores
- makes the skin smoother and promotes the removal of dead epidermal cells
- lightens and evens out the skin tone
- maintains a healthy balance of bacterial skin flora
- moisturizes the skin and relieves irritations
- leaves the skin clean, smooth and fresh.

MANDELIC ACID + PHA

500 ml

100 treatments

Ref. PT 370

Cleansing Gel With Mandelic Acid

Indications: Gentle cleansing gel for all types of skin for use before exfoliation with mandelic acid.

Ingredients: mandelic acid (6%), astragalus, liquorice, panthenol; pH 3.0.

Effects:

- cleanses and degreases the skin in preparation for mandelic acid application
- clears clogged pores
- controls bacterial skin flora and regulates the function of sebaceous glands
- does not cause excessive dryness or pulling sensation
- leaves the skin clean and fresh.

MANDELIC ACID + PHA

500 ml

100 treatments

Ref. PZ 365

35% Pyruvic Acid, Lactic & Azelaic pH 1,3

Indications: Gel exfoliator for oily skin with impurities, acne blemishes and hyperpigmentation.

Ingredients: pyruvic acid (22%), lactic acid (10%), azelaic acid (3%); pH 1.3.

Effects:

- provides superficial or medium depth peeling action
- has a strong bacterio- and sebostatic effects
- reduces seborrhoea, comedones and papules
- peels off the skin, refines enlarged pores and minimizes scars
- lightens hyperpigmentation.

PYRUVIC ACID

50 ml

30 treatments

Ref. PP 083

Tonic-Gel With Pyruvic Acid

Indications: Alcohol-free tonic for oily skin with impurities, acne blemishes and hyperpigmentation.

Ingredients: pyruvic acid (1%), astragalus extract; pH 3.0.

Effects:

- prepares the skin for exfoliation with pyruvic acid
- degreases the skin and promotes the removal of dead epidermal cells during the exfoliation treatment; smoothes out the skin and normalizes sebum secretion
- moisturizes the skin and soothes irritations
- leaves the skin clean, lighter and refreshed.

EXFOLIATION ACIDS

Acid Neutralizer

New

25% Phytic Acid pH 3,0

EXFOLIATION
N

Indications: Alkaline agent (pH – 9.0) for neutralizing acids.

Ingredients: sodium bicarbonate, panthenol, allantoin, liquorice, sodium hyaluronate.

Effects:

- instantly neutralizes acids and effectively inhibits their activity
- enables safe controlled exfoliation
- its active ingredients effectively soothe and moisturize the skin and promote healing.

500 ml

100 treatments

Ref. PT 366

Indications: self neutralizing (doesn't require washing off) anti-age peeling for all types of mature skin.

Ingredients: 25% phytic acid, pH 3.0.

Effects:

- gently exfoliates and cleanses the skin
- evens and brightens discolorations
- permeation promoter - provides excellent permeation of active substances
- powerful anti-oxidant - antioxidant and anti-aging effect
- Leaves the skin visibly illuminated, clean and tight.

10-15 treatm.

Ref. PA 173

Indications: Gel cocktail for sonophoresis and no-needle mesotherapy for oily, seborrheic and acne skin.

Ingredients: 3% azelaic acid, rosemary, willow and birch bark extracts, tee tree extract, vitamins B2 and B6, panthenol, allantoin, pullulan.

Effects:

- controls bacterial skin flora
- promotes the healing of pustules
- reduces seborrhea and comedones
- smoothes out the skin and refines enlarged pores
- lightens post-inflammatory hyperpigmentation.

Wrinkle Correction Cocktail With Amino Peptides

PRO ACTIVE
P

30 ml

10-15 treatm.

Ref. PA 374

Indications: Gel cocktail for sonophoresis, micro- and no-needle mesotherapy for all types of mature skin over the age of 45.

Ingredients: peptides (SYN®COLL and SYN®TACKS), yam, cohosh, pullulan, tocotrienols.

Effects:

- stimulates collagen, elastin and GAG synthesis
- reduces and gradually smoothes out wrinkles and furrows
- supports intercellular communication
- regenerates and moisturizes the skin, making it firmer
- leaves the skin tighter, firmer and more „compact“.

Cocktail for Rosacea Skin 4% Vitamin PP 2% Redyless

NEW
FORMULAPRO ACTIVE
P

30 ml

10-15 treatm.

Ref. PA 174

Indications: Gel cocktail for sonophoresis and no-needle mesotherapy for the skin in the 1st and 2nd phase of rosacea and for couperose skin.

Ingredients: Redyless®, Pronalen Aesculus, Helichrysum hydrolate, Mimosa, Centella asiatica, Vitamin PP, Panthenol, Allantoin, Pullulan.

Effects:

- reduces flushing and persistent erythema
- promotes suppression of inflammation
- improves the activity of TRPA1 and TRPV1 heat and cold receptors
- soothes hot and burning skin
- moisturizes, lightens and calms the skin.

Moisturizing Cocktail With Hyaluronic Acid And Trehalose

PRO ACTIVE
P

30 ml

10-15 treatm.

Ref. PA 375

Indications: Gel cocktail for sonophoresis, micro- and no-needle mesotherapy for all types of skin, and especially dry and dehydrated skin.

Ingredients: trehalose, hyaluronic acid, sodium hyaluronate, liquorice, white tea, pullulan.

Effects:

- effectively binds and retains moisture in the skin for a long time
- eliminates skin roughness and dryness
- reduces superficial wrinkles caused by excessive skin dryness
- prevents moisture loss and skin irritations leaves the skin soft and smooth.

COCKTAILS

Collagen Cocktail

Indications: Gel cocktail for dry, rough skin, with signs of fatigue and exposed to oxidative stress (UV, smog, fumes).

Ingredients: atelocollagen, triple hyaluronic acid SMW, LMW and VLMW, phytoplankton extract, deep sea water, panthenol.

Effects:

- the highest dose of active substances provides instant results - silky smoothness, softness and flattening of shallow wrinkles
- long-term moisturizing and protecting against polluted environment
- strongly remineralises, detoxifies and improves skin tone
- provides a fresh, radiant and refreshed appearance.

ATELOCOLLAGEN

Moisturizing & Normalizing

Indications: Lightweight moisturizing cream for dehydrated, oily and combination complexions. An ideal base for makeup.

Ingredients: ceramides, Hydrowiton[®] Plus, rosemary, willow and birch bark.

Effects:

- effectively moisturizes and complements the deficiency of water in the epidermis
- normalizes secretion of sebum
- soothes
- detoxifies the skin
- Provides fresh, smooth and perfectly moisturized skin.

HYALURON PLUS

150 ml

70 treatments

Ref. PK 209

Energizing Vitamin Sorbet

Indications: Light fat-free cream-gel for dry skin, oily skin exposed to premature aging, hypoxic and dull.

Ingredients: Vitamin A (retinol), B3, B6, C, E, F, provitamin B5, coenzyme Q10, extracts of lime, mandarin.

Effects:

- strongly regenerates the skin and does not increase sebum production with oily complexions
- "vitamin" bomb gives the skin firmness, elasticity and protection against photoaging
- oxygenates and improves the color of tired, gray skin
- gives the skin an exceptional smoothness, freshness and radiance.

CREAMS

Vitamin Cream
Energizing And Nourishing

Indications: Rich, highly regenerating cream for dry, hypoxic and dull complexions.

Ingredients: Vitamin A (retinol), B3, B6, C, E, F, provitamin B5, coenzyme Q10, extracts of lime, tangerine, grape seed oil, olive oil, shea butter.

Effects:

- cream is a real "vitamin bomb" that provides firmness and elasticity
- guarantees the highest antioxidant protection to prevent photoaging
- oxygenates and improves skin tone
- moisturises and gives the skin an exceptional smoothness, softness, vitality and "glow".

MULTIVITAMIN

Vitalizing Cream With Colloidal Gold

Indications: Velvety cream recommended for all types of mature skin which needs regeneration and brightening.

Ingredients: pearl extract, colloidal gold, Rona Care[®] VTA, vitamins C and E, Abyssinian oil, sodium hyaluronate, mica, panthenol.

Effects:

- makes the skin firmer and more elastic
- smoothes out wrinkles and prevents them from getting deeper
- soothes the skin and stimulates collagen synthesis
- ensures optimum skin hydration, binding moisture in the epidermis
- leaves the skin looking rejuvenated and full of golden glow.

PEARLS AND GOLD

Ref. PP 354

Coconut Body Peeling

Indications: Creamy body scrub with a subtle coconut scent; also recommended for use as a mask for dry and damaged skin or after tanning.

Ingredients: coconut shreds, coconut oil, vitamin E, PE peeling spheres.

Effects:

- coconut shreds peel off and smooth out the epidermis
- coconut oil released during massage replenishes lipids and makes the skin more elastic
- intensely regenerates damaged skin
- leaves the skin velvety smooth and moisturized.

COCONUT SPA
C

400 g

10 treatments

Ref. PP 333

Coconut oil

- moisturizes the skin, makes it smoother and more elastic, and leaves no oily residue. It prevents moisture escape and helps preserve the natural epidermal lipid barrier.

Coffee Body Peeling

Indications: Body scrub with an invigorating coffee scent, for use during spa and wellness body treatments, as well as slimming and anti-cellulite treatments.

Ingredients: Arabica coffee (a source of caffeine and polyphenols), micronized coffee beans, pumice powder.

Effects:

- exfoliates, smoothes out the skin and boosts oxygen supply
- aids the burning of fat tissue
- leaves the skin delicate, smooth and elastic.

COFFEE SPA
C

500 ml

10 treatments

Ref. PP 305

Body Peeling AHA 20%

Indications: Gentle gel emulsion exfoliator with AHA acid.

Ingredients: 20% lactic acid, pH 4.5

Effects:

- effectively prepares the skin for body treatments
- makes the skin smoother and lighter and promotes the removal of dead epidermal cells
- promotes the absorption of active ingredients contained in the products used during the treatment, this way enhancing its efficacy
- glides on easily
- does not cause irritations.
